

## R&R: Read and Recall

Number the paragraphs of a text, pausing after reading each paragraph to determine the Level 1 and 2 question(s) that the author answered in each paragraph. Write the questions in the “Read” column. On the “Recall” side, make a bulleted list of the ideas that are important to answer each question. More rows can be added as needed. Write a summary of the information in the text. You can use this organizer as a study tool by asking yourself the questions in the “Read” column and verifying your responses with the answers in the “Recall” column.

Paragraph Number	Read	Recall
